**Subject:** RE: Verus Pro

And we cannot hold the Sig Ver process because we have 20+ staff assigned to do that and cannot get backlogged

Mike, are then all of these records going into the "High Confidence" even ones that would otherwise go into the "Low Confidence"?

We trained staff to look at High Confidence one way and Low Confidence another, so I need to have them made aware that the "High Confidence" is not really true and there can and will be a mix of all types (match, no match, no signature, etc ) in the High Confidence queue, correct?

**Subject:** RE: Verus Pro

Mike,

Verus Pro began failing to verify signatures at 11:24am this morning I've stopped Verus Pro from automatically verifying new signatures, and am researching the cause of the failure now, I will reply back with more information shortly

The issue began while processing the set of signatures that was exported to ConfidenceExport20200727112730 csv. The confidences on lines 1-352 have valid scores, then the rest are blank. The confidences are also blank in each of these subsequent exports:

ConfidenceExport20200727114732 csv  
 ConfidenceExport20200727114232 csv  
 ConfidenceExport20200727113731 csv  
 ConfidenceExport20200727113231 csv

Are you able to not import these confidences into your system so that we can re-process them when we resolve the problem?

Thank you,  
 Chris

Looks like 221 are still in Verus Pro. Chris can you see what is happening with those?

Thanks Mike, 8939 new signatures processed this morning and are now exported. Here are our updated statistics for the Primary:

Accepted: 29,186  
 Rejected: 15,565  
 Failed to Verify: 67  
**Total: 44,818**
